Letter of Reference,

I had Meyer Mechanical install a new central air conditioner and a new furnace in March of 2003. I am extremely pleased with the installation and the performance of both systems. The original furnace was 18 years old and the house did not have AC. Roger bid on the job and sized the system. He completed the job in 2 days and was very efficient and clean. He hauled away the old furnace and took care of everything. I would also like to commend his electrical subcontractor who also did an outstanding job. Even the regional building inspector commented on the installation quality. The furnace has worked like a charm this winter and is so much of an improvement over the old one. I look forward to the air conditioning again this season. Thank you for the good work and I know I can count on you should I need any service work.

Sincerely,

A handwritten signature in cursive script that reads "Janet Christensen". The signature is written in black ink and is positioned above the printed name.
